-

11. Reading Placement, Grades 1-6:

Beginning readers use the **Reading Evaluation**. Others may choose a comfortable level from books on hand (One page is sufficient). Email an audio and printed copy of what is read.

12. Writing Skills, Grades 1-6:

Describe how to build or make something (bird house, rocket, painting, drawing, dress, etc).

Writing Skills, Grades 7-12:

Write a short composition about a favorite hobby (Parents, do NOT edit!)

13. Math Information, All Grades:

Last Math book used (include grade level):

What are your average daily work grades for Math?

Send recent work samples if possible.

Please email completed form to office@MooreFoundation.com

Additional Curriculum Placement Information

Please complete for all grade levels

Math Placement: Check all skills in which this student is proficient

Addition Facts to 10	Multiplies fractions
Addition Facts to 20	Divides fractions
Carry in Addition	Calculates perimeter and area
Borrow (rename) in subtraction	Adds and subtracts decimals
Knows multiplication facts	Multiplies decimals
Does long division	Divides decimals
Does rounding off - estimating	Calculates volume - cube, cylinder
Adds fractions	Solves ratios and proportions
Subtracts fractions	Knows basic geometry - angles, congruency
Understands place value	Uses positive and negative integers
Does measurements	Solves basic Algebra - unknowns, exponents
Understands metric system	Figures polynomials

History and Geography Placement: Check as many topics studied in the last few years as can be remembered

Travel and Transportation	United States Geography
Citizenship	Cultural Studies
Exploration	United States History
Map Skills	North American History
Communication	Central American History
Continents	World Geography
Historical Biographies	World History
Other	

Additional Curriculum Placement Information

Please complete for all grade levels

Science Placement: Check as many topics studied in the last few years as can be remembered

Health habits

First Aid/Emergencies

Flower and plants

Animal behavior

Moths/Butterflies

Rocks and minerals

Stars/Solar System

Magnets and batteries

Flight - Planets

Geology

Weather

Conservation

Anatomy and Physiology

Biology

Other

Chemistry

Physics

Creation Science

Aerodynamics

Computer Science

Marine Biology

Ecology

Archeology

Organic gardening

Ornithology

Meteorology

Veterinary Science

Electronics
